June 20, 2020

Cattaraugus County Health Department was notified of three additional confirmed cases of COVID-19 residents within Cattaraugus County. The department's active positive COVID-19 caseload is now ten as there are seventy-four residents who have recovered from COVID-19.

The eighty-sixth confirmed case is a female resident who resides in the southeast quadrant of the county, who has no significant travel history. She works for a healthcare facility in Olean and was tested for COVID-19 on June 12<sup>th</sup> as part of a recent requirement of all adult care facilities to test all employees weekly. She reports being asymptomatic (no fever, no cough, no body aches, etc.) and denies any known contacts with a positive COVID-19 person. Her test results on June 19<sup>th</sup> indicated that she was positive for the virus.

The eighty-seventh confirmed case is a female resident who resides in the southeast quadrant of the county, who has no significant travel history. She works for a healthcare facility in Olean and was tested for COVID-19 on June 11<sup>th</sup> as part of a recent requirement of all nursing home facilities to test all employees weekly. She reports being asymptomatic (no fever, no cough, no body aches, etc.) and denies any known contacts with a positive COVID-19 person. Her test results on June 19<sup>th</sup> indicated that she was positive for the virus.

The eighty-eighth confirmed case is a female resident who resides in the southeast quadrant of the county, who has no significant travel history. She is a direct contact of a positive COVID-19 person but reports being asymptomatic (no fever, no cough, no body aches, etc.). She was tested for COVID-19 on June 17<sup>th</sup> and her test results on June 19<sup>th</sup> indicated that she was positive for the virus.

The department has begun a thorough contact tracing investigation for those individuals that they have been in contact with, and the places that they have visited.

We would like to reiterate that if any resident experience fever, cough, shortness of breath or whole body aches they should contact their health care provider (avoid going directly to an Urgent Care facility, or the Emergency Room before calling).

Finally, in an effort to determine the prevalence of COVID-19 in our community, any resident interested in getting tested, can register for a test at [www.cattco.org/covid-19-test](http://www.cattco.org/covid-19-test) or call 716-938-9119 or 716-938-2265.
