

MEET THE MEDICAL DIRECTOR

EMS providers don't often get the opportunity to meet directly with their medical director but have to follow their orders/policies.

Likewise Medical Directors often don't get the opportunity to sit down and talk to the EMS providers that are in the field providing care and following the orders/policies that they issue.

In an effort to continually improve EMS care, we are offering several "Meet the Medical Director" meetings. These meetings will give ALL EMS providers and Officers of agencies that Dr. Walters provides medical direction for a chance to meet with him, ask questions, participate in a round table/open discussion on various EMS topics and give Dr. Walters the chance to meet you!

Providers and members from any agency that Dr. Walters serves as the Medical Director for are invited and encouraged to attend.

WHEN: October 29, 2019 - 18:30 - 21:00
